Prior to soundcheck, stage:
 4 chairs with no armrests. 2 tables, good, steady and strong enough. NOTE: stage risers are not tables. DI's, microphones, IEM system with splitter are with us. 3 fixed wls frequencies, 864.850, 864.375 and 863.100 Mhz
 What we need from You:
 1 straight and 5 long mic stands with boom, mic cables with stage snakes and 230v electric. Good professional factory made PA-system, enough SPL and coverage on the venue.
 FOH: if digital, professional mixer with enough resources. If Analog, (NOT a bad idea), enough channels, quality sideboard including 4 gates, 8 comps and reverb.
